REF: GRANT APPLICATION FOR SEPTEMBER 2023 – BASIC EDUCATION – COMPUTER FOR PRIMARY SCHOOL

I am writing this application on behalf of the students of Kaboswa Primary School located in the underprivileged community of Kapsoit Centre, Kericho County. We are applying for the Basic Education Grant for Sept 2023, which focuses on providing basic education to students who do not have access to it.

We wish to apply for the following grant:

BASIC EDUCATION- Computer for Primary School (CAD \$1000.00 approximately 106,000 Kenyan Shillings)

Kaboswa primary school currently does not have any computer for students, and this has caused a major setback in students' education and learning experience. With this grant, we aim to purchase five new computers that will be used by students in Grade 6 to Grade 8. The computers will be installed in a classroom that has been converted to the school's computer lab, which will be utilized by students during their computer class and research projects.

Brand: Ex UK Hp

Model: Compaq dc7700 ssf

Specification: Windows 7 Pro ,CPU 2GB 160 HDD, 17 INCH MONITOR, KEYBOARD, MOUSE,

The total cost for the five computers, including tax, will be CAD \$1000 approximately 106,000 Kenyan Shillings. Since our school is located in an underprivileged community, it is challenging for us to purchase these computers. We request that this grant be awarded to us, which will help our students to fulfill their computer literacy.

We anticipate that approximately 200 students will benefit from this grant by using the computers for their study and research activities.

We have attached a picture of the computers we wish to purchase in the top right corner of the application and our Bank account number is 0734945003 for the transfer of funds.

Thank you for considering our application, and we hope that our school can receive the Basic Education Grant, which will help our students to enhance their learning experience through computer literacy.

Yours in Rotary Service
